## ABOUT THE TEAM

First, the Brooklyn Cyclones brought professional sports back to the borough for the first time in over 40 years. Now MCU Park will once again play host to a historic moment in Brooklyn sports lore as the Brooklyn Bolts, a member of the newly formed FXFL, kick off their Inaugural Season this October.

[WWW.BKLYNBOLTS.COM](http://WWW.BKLYNBOLTS.COM)

## ABOUT THE LEAGUE

### THEY'RE CLOSER TO THEIR DREAM YOU'RE CLOSER TO THE ACTION

The FXFL (Fall Experimental Football League) is a brand-new developmental football league that is modeled after the success of Minor League Baseball. The league will be comprised of players who just missed achieving their dreams of making an NFL roster after they graduated college and want to continue to develop and improve in hopes of one day getting their chance in "The League."

The FXFL will play with the same set of rules as the NFL, so no whacky or experimental rule changes. But like Minor League Baseball, the fans will get unparalleled access to the players and affordability that allows the entire family to enjoy the action. It's real football...and you're real close.
